CLEAN AIR SYSTEMS

®

Mist Capture, Machining Smoke & Filtration

Our proprietary MISTMax™ filter technology utilizes a combination of Brownian Diffusion (smaller particles randomly combine to form larger, more easily removed particles) and conventional oil mist filtration techniques to provide a highly efficient filter, yet also offers unmatched cost effectiveness in terms of upfront investment, replacement filter costs and overall maintenance costs of equipment.

Mist Capture, Machining Smoke & Filtration

Model MM400

Features

- 400 CFM Actual
- Longer Filter Life than Traditional Filter Technologies
- New MISTMax™ Proprietary Filter Technology Competes with European Technology
- Heavy Duty Cabinet - Rugged Construction
- Mist-X Prefilter
- Up to 99.98% Efficiency Without Additional HEPA Filters
- Minihelic Gauge Indicates Filter Loading
- Front Load, Easy Filter Access
- High Capacity Direct Drive Blower
- Start/Stop Switch std.
- Side Inlet with Pre-Separation Champer
- Bottom Coolant Drain

Model MM800

Features

- 800 CFM Actual
- Longer Filter Life than Traditional Filter Technologies
- New MISTMax™ Proprietary Filter Technology Competes with European Technologies
- Heavy Duty Cabinet - Rugged Construction
- Up to 99.98% Efficiency Without Additional HEPA Filters
- Dual Gauges Track Static Pressure on both the Pre-Filter and the Primary Filter
- Front Load, Easy Filter Access
- High Capacity Direct Drive Blower
- Start/Stop Switch std.
- Cam Lock Positive Filter Seal System Ensures No By-Pass

Mist Capture, Machining Smoke & Filtration

Model MM1200

Features

- 1200 CFM Actual
- Longer Filter Life than Traditional Filter Technologies
- New MISTMax™ Proprietary Filter Technology Competes with European Technology
- Heavy Duty Cabinet - Rugged Construction
- Up to 99.98% Efficiency Without Additional HEPA Filters
- Dual Gauges Track Static Pressure on both the Pre-Filter and the Primary Filter
- Front Load, Easy Filter Access
- High Capacity Direct Drive Blower
- Cam Lock Positive Filter Seal System Ensures No By-Pass
- Start/Stop Motor Controls
- 3 ea. 10" dia. Inlet Collars std. Located Left, Right and Back

Model MM2400

Features

- 2400 CFM Actual
- Longer Filter Life than Traditional Filter Technologies
- New MISTMax™ Proprietary Filter Technology Competes with European Technology
- Heavy Duty Cabinet - Rugged Construction
- Up to 99.98% Efficiency Without Additional HEPA Filters
- Dual Gauges Track Static Pressure on both the Pre-Filter and the Primary Filter
- Front Load, Easy Filter Access
- High Capacity Direct Drive Blower
- Cam Lock Positive Filter Seal System Ensures No By-Pass
- Start/Stop Motor Controls
- 3 ea. 14" dia. Inlet Collars std. Located Left, Right and Back

Mist Capture, Machining Smoke & Filtration

Model MM3600

Features

- 3600 CFM Actual
- Longer Filter Life than Traditional Filter Technologies
- New MISTMax™ Proprietary Filter Technology Competes with European Technology
- Heavy Duty Cabinet - Rugged Construction
- Up to 99.98% Efficiency Without Additional HEPA Filters
- Dual Gauges Track Static Pressure on both the Pre-Filter and the Primary Filter
- Front Load, Easy Filter Access
- High Capacity Direct Drive Blower
- Cam Lock Positive Filter Seal System Ensures No By-Pass
- Start/Stop Motor Controls
- 3 ea. 14" dia. Inlet Collars std. Located Left, Right and Back

Mist Capture, Machining Smoke & Filtration

**EASY
AS...**

1

2

3

Economical 3-Stage filtration uses 2 prefilter stages and a main filter stage. Oil mist laden air flows through the inlet where the air is turned in vertical direction which allows for natural drainage of accumulated coolant mist.

**STANDARD LIFE
3 - STAGE FILTRATION**

Mist Capture, Machining Smoke & Filtration

Model OM550DD

Features

- 600 CFM Actual
- Exclusive Mist-X Oil Mist Filtration Option
- Multi-Stage Filtration
- Side Load, Easy Filter Access
- Heavy Duty Direct Drive Blower
- 6" Inlet Size
- Up to 3 Stage Filtration
- Built-In Oil Deflector
- Angled Inlet Plenum to Facilitate Coolant Drainage
- Slotted Rails for Easy Filter Installation
- Start/Stop Motor Controls

Model OM3510

Features

- Up to 3000 CFM
- Side Load and Hinged Door for Easy Filter Access
- Up to Four-Stage Filtration
- Cam-Lock Positive Filter Sealing
- Filter Change Light or Magnahelic Gauge
- Side Exhaust Capability
- Exclusive Mist-X Oil Mist Filtration Option
- Full Range of Optional Accessories
- Up to Four-Stage Filtration

Mist Capture, Machining Smoke & Filtration

Model OM6000DD

Features

- Up to 6000 CFM
- High Capacity Allows for Multiple Pickups
- Exclusive Mist-X Oil Mist Filtration Option
- Up to Four-Stage Filtration
- Hinged Door for Easy Filter Access
- Heavy-Duty Blower
- Variety of Inlet Sizes
- Cam Lock Positive Filter Seal System Ensures No By-Pass
- Full Range of Optional Accessories

Model OM6000

Features

- Up to 5000 CFM
- High Capacity Allows for Multiple Pickups
- Exclusive Mist-X Oil Mist Filtration Option
- Up to Four-Stage Filtration
- Hinged Door for Easy Filter Access
- Variety of Inlet Sizes
- Cam Lock Positive Filter Seal System Ensures No By-Pass
- Full Range of Optional Accessories

Mist Capture, Machining Smoke & Filtration

Model MX3510

Features

- Up to 2200 CFM
- Exclusive Mist-X Oil Mist Filtration Option
- Hinged Door for Easy Filter Access
- Filter Change Light or Magnahelic Gauge
- Up to Four-Stage Filtration
- 4-Way Adjustable Outlet Louvers
- Cam Lock Positive Filter Seal System Ensures No By-Pass
- Full Range of Optional Accessories

Model MX6000

Features

- Up to 4500 CFM
- Exclusive Mist-X Oil Mist Filtration Option
- Up to Four-Stage Filtration
- Full Range of Optional Accessories
- Motor Starter/Overload Relay Standard
- 4-Way Adjustable Exhaust Grilles
- Hinge Door for Easy Filter Access
- Cam Lock Positive Filter Seal System Ensures No By-Pass
