Weld College System

PG. 3

That's a Wrap!

There is not a dust collector for all applications. But there is a perfect Dust collector for EACH application

“REPPIN IT BIG TIME!”

Micro Air was pleased to partner with this “BIG” school project in Joplin MO. The system included a 36-cartridge unit with a RP12-3, 100 horse power motor to provide suction to 40 SCTA telescopic arms, & 2 weld hoods. Also Micro Air’s Intellitouch to provide a stabilized CFM consistent with system static and filter loading. *Photo compliments of Mike Ellis*

BUILD-2-PART PHILLADELPHIA & WEST TECH ANAHEIM CALI

Micro Air was proud to partner with Spartan & Air Cleaning Technology to display some of our dust collection line at “Build-2-Part” in Philadelphia Pennsylvania & West Tech in Anaheim California, Great turn out on the East Coast with a lot of interest ranging across the Micro Air product line. A BIG thankyou to Matt Dariano and Paul Krause for allowing me to represent the Micro Air line with you. Looks like the next scheduled trade show will be Fab Tech in Las Vegas next year. If you or any of our distributors have interest in a booth at a trade show, speak with your Micro Air rep to explore interest!

MORE-WELD COLLEGE IN JOPLIN MO

Ext....Micro Air had the privilege to partner with Environmental Air Technologies to provide a large collection system to protect students from weld fumes. From big to small – Micro Air has you covered!

THAT'S A WRAP!

2025 presented many challenges across the Air cleaning industry. We saw a few really thrive, while the majority of distributors faced challenges. We look forward to a prosperous 2026! Blessings to all.
